It was a bit slower than other converters I have used. had to look up a couple of methods in the forum.once. Ithmb Converter 1 44 SerialQ: How to enable in house security for MSSQL express I have a MSSQL express connected to my website built with CakePHP. I have run Windows security on it, but it didn't seem to apply. Is there any way to restrict access to my in-house database to my website only? A: You may need to look at securing it inside SQL Server. Assuming you're running Windows, you can implement role based security on your SQL server, and use that to allow only connections for which the users have the appropriate level 570a42141b
