The present invention relates to a method for the preparation of an enriched mixture of 1,4-butanediol (butyraldehyde), 1,4-butanediol-2-methanol and 1,4-butanediol-2-methyl ether, also referred to as a 1,4-butanediol methanol ether. The present invention further relates to a mixture of 1,4-butanediol, 1,4-butanediol-2-methanol and 1,4-butanediol-2-methyl ether. The present invention also relates to a process for the preparation of 1,4-butanediol-2-methanol, 1,4-butanediol-2-methyl ether and 1,4-butanediol from 1,4-butanediol and/or its aldehyde. 1,4-Butanediol is a product of the chemical industry and is used, for example, as a solvent, a plasticizer or as a monomer in the preparation of polyesters. DE-A 100 29 958 describes the preparation of 1,4-butanediol in a two-step synthesis, where the first step is the catalytic hydrogenation of acetylene with a molecular sieve on a supported ruthenium catalyst, while the second step is a hydrogenation of

I know that only stands for only. However, what does "not only" mean in the following sentence? Banks are becoming more risk-averse. Not only do they want to make the most of their investment, they want to make it while there is still a low-interest rate environment. Thank you. A: not only does not mean only, but also it stands for "not only". So this phrase is a little bit informal. Prometheus 0.12: a new arrival It's time for a little update, so let's make a quick introduction to what's new in Prometheus v0.12, the most recent release. We already introduced it in the past weeks as part of the Prometheus Global Challenge, but let's do it properly now. I've written a great article on Prometheus internals that you can read here. It's a good step-by-step guide to getting familiar with some of the internals, but I'd really encourage you to read my blog posts about Prometheus internals, because they answer all your questions about how it works. A new HTTP client? The previous HTTP client used by Prometheus was written almost a decade ago. In the last few months, our core team has been working on a new HTTP client that supports more modern features (like HTTP/2). In addition, it's a lot faster and a lot more efficient. We also merged the existing implementation into the main codebase, so users will no longer need to build the HTTP client from the source code. We've kept the old client for compatibility with older versions, but in the next major version (0.13) it will be deprecated and removed completely. Prometheus now collects summary metrics over HTTP Summary metrics are great, but they require

### What's New In Behind The Masks Theme?

"Behind the Masks" Theme is a free new theme designed for Windows XP and Vista. We invite you to download "Behind the Masks" Theme and meet our mascot, Mouse. Behind the Masks Theme consists of several colorful desktop wallpapers. All the desktop wallpapers are animated and are called "sneaky" because all of them have a unique ability to make you surprised with their strange effects. The desktop backgrounds with the "sneaky" effect include a clown, a ghost, a moth, a snail, a dragon and an elephant. These funny pictures create an atmosphere of happiness and fun for the user.
