(video: 1:40 min.) Shape Recognition: Automatically incorporate geometry into your drawings with Shape Recognition. Use it to add a photo, a picture or create new lines by drawing on an image. Global Drafting: Draft a piece of 2D design with your 3D

model. Design not only over 2D but also in 3D space with shapes and objects that stay connected to the geometry. Arc and Circle: Draw a circle or arc. Arc and circle tools can be used like their 2D counterparts in the new Projection tool family. Instead of being fixed to the drawing plane, they can be rotated or extruded for 3D views. Blend: Blend 2D and 3D drawings
