“Will your troops reach the enemy fort before the opposing wizard does? Can your soldier’s armor deflect the opponent’s fiery crossbow bolts? Can your mercenary’s ability to heal his sick comrade outlast the mighty fighting champion? Raid the enemy stronghold and discover a wealth of interesting tactical decisions.” About The Game Master Tactics: “The greatest challenge is to be able to fully utilize all the available features of your characters. Prepare for a long, and yet unique, experience!” About Chris Baena Chris Baena is the writer and producer for From Garbage to Gasoline; a game about the development of a motorsports series. As a project lead for Stuntworks and the featured automotive animator, he has worked on critically acclaimed racing titles, such as MotorStorm on the PS3. Chris has worked with games from Ubisoft and focused on the creation of a new series for UbiSoft. Chris has previously produced game trailers for titles such as LawBreakers, Overwatch, Halo 5, Battlefield 4, and Batman: Arkham City. He has also worked on multiple Academy Award winning trailers. About The Game Tavern Table Tactics is a strategic game where players assume the role of great leaders of a mercenary army. To succeed in the game, players must conquer the wastelands of the post-apocalyptic world and take back the coveted world of the Tavern! Explore the game and take a look at the Tavern Table Tactics gallery! Storyline The world was once peaceful and

civilised – until it was destroyed. Families and homes were destroyed, and the survivors had to live in the ruins of a ruined world. For thousands of years, the desperate survivors survived in their search to fill the depleted resources and restore their homes. Now, it is your turn to take command of a mercenary army. Will you settle in one of the three towns or build a new settlement of your own? Features Eight different land types, each with its own advantages and disadvantages. The various terrains you will find in the game will either be temperate or cold. It is your task to build up your settlement. You can settle at different locations and gain a certain amount of victory points. Character development Each mercenary has his or her own statistics, including the ability to heal their comrades. With these statistics, you can tailor your troops to your own needs. You can also alter the appearance of your character with different clothing, weapons and

**Bob is a hapless burglar who desperately wants to get a job where he can wear nice clothes. Unfortunately for him, he's going to be forced into a few final jobs before he's allowed out of the criminal life. He's a ninja, dammit! He sneaks past guards, residents and sleeping dogs in his quest for loot. Use your ninja-like skills to hide in some tight squeezes and avoid detection. Levels are spread over 100 stages, including everything from seemingly ordinary neighborhoods to secret labs and high-rise skyscrapers. Can you get a perfect in every one? Collect and steal items: Pinch all kinds of things like secret documents, old clothes, underwear and anything you can carry. Controlled with the touch of a button: Easy controls ensure that everyone can enjoy this fun stealth game. Let Bob Steal Your Heart: An engrossing comical storyline featuring hilarious animations and a fun narrative with genuine twists and turns. You have to put the breaks on, and as somebody who liked the game when it was free to play, I actually would have appreciated being able to earn the challenge. However, I wanted to wait for this for a while because I played it once before when it was free and thought it was pretty good. This is only the first chapter of the story, but I**

**think its pretty good. However, I really don't like the game engine at all. It just does not feel like any game I've played before at all. It just feels very dull and slow and clunky. I don't mind that it's intended to be free to play but I thought it would actually be free to earn. I really think the paid portion of the game would have been better (which I think makes sense from a business standpoint). However, I still think the game is great. As far as I know, the issue with "shop" like you describe isn't limited to Professor Layton games. It happens in all kinds of games, from Match-3 to RPGs. That's why I think this issue was on display in the original Professor Layton games, and perhaps on purpose by the developers. You can't have a shop in the same way as the game's core mechanics. It would be like putting on workout shorts with sharp blades in them. They don't make sense. There's a certain amount of logic in playlists and such, but those always follow the gameplay. This is sometimes more**
