A large number of countries have their

own versions of the Constitution of India.. a. Indian history, university system and legal system.. Culture, people, food, language, literature, and religion. The present invention relates to prosthetic limb devices, and more particularly to a knee joint prosthesis for providing a natural and accurate knee articulation. Standard knee arthroplasties are not without limitations, and have been criticized for their inability to provide a natural and accurate range of motion. As a result, surgical revisions of total knee

replacement often result in loss of well-being, functional ability, and the structural integrity of the adjacent bone.

Artificial knee joints have been developed to decrease the stress and strain on the bones around the knee during weight bearing, to increase motion between the tibia and femur, and to compensate for the loss of ligamentous support. The knee joint prostheses include the following items: (1) tibial components which are attached to the distal end of the tibia to engage a complimentary femoral component

attached to the distal end of the femur;
 (2) femoral components which are
attached to the distal end of the femur;
 and (3) a plurality of intra-articular
components which are attached to the
tibia and femur to provide a ball and
socket artic
