
Seven Swords 2005 Dvdrip Download [REPACK]

it's kind of cool to see the big success of seven swords again in a different territory. it's like the matrix, but with chinese people. it's also based in the same setting (xinjiang), and it's pretty much the same story as the first film. it's about time for a sequel. the first seven swords was a fun, action-packed flick that did a great job of telling a classic tale of good vs evil, of heroes that have to stand up and fight the system, and to survive. it showed the beauty of the chinese martial art. that and its slick style make it an enjoyable film. we're excited to see the sequel. now, let's see it in our native tongue! i watched the original movie seven swords in high school with my friends. i don't remember how, but i do remember watching it on that early video player. we were all big fans of the movie, but none of us remembered it being so bloody. hanging on to the side of the screen is the blood! the swords look pretty cool, but i don't think i'll ever see them, let alone play them. if you want a really good kung fu action film, the original seven swords is still the best. it's a classic that's been influential on many kung fu films. it's got all the right moves. some parts of the film can be a bit simplistic and repetitive but it's always fun to watch. there are a couple of sword fighting scenes but the rest of the time there is just a lot of action. this trailer is the one part where i really wasn't keen on, since its a bit too preachy (as all trailers, i suppose). i would have liked more or less just a nice looking trailer with the music and a bit of action. just the story and the style of the movie would have worked. here we have another endorsement for the sword. not only are swords used for their lethality and that they're the main way for the warriors to slay their enemies, they are also used as symbol of power and rank. so it's not just about slashing people but about the manner in which the warrior carries and displays the sword. the first sword that the warriors meet are the ones with no owners, therefore the sword is the symbol of freedom for the people. and this is the belief that the warriors hold on to, that they cannot fight as good without the sword.
