b&b is based on the dc comics.it's also not the only batman movie that was based on a comic book. the comics are the source of many stories and many characters, but one of the most popular is batman begins. it was originally

planned to be released in 2005, but was delayed to allow director christopher nolan to create a new story for batman. he had to do a lot of research on the character, including studying the comics. there are many batman comics, but b&b is based on three. the three stories that the film is based on are: 'the dark knight returns' 'death of the family' 'the killing joke' if you have read any of the other batman novels, you know that

he is a very complex character. the case of the dark knight is unusual in that he has had very little continuity. this has allowed the writers to create a character that can have new stories. in fact, i think the series do as much for batman as the movies do. hopefully the new animated series will continue this trend. this is a great book, but i'm not sure i agree with their reading order. the storyline is great, but i don't think their book

---

order is correct. they should have had "the penguin war" and the "batman for all seasons" subplots first, then moved the second half of their storyline in as a counterpoint to the penguin war. it's like when you watch a movie, you want to see the story unfold in the order that the storytellers decided. you want to see the beginning of the story before the middle, and then you want to see the middle before the end. i think that's what de souza is doing

---

in the batman books, by telling the stories in order of importance and in the order that he planned them.
