The Secrets of Elite Mixology - ralphwasserman ===== enjevon As a barback, I have to say that I wish these types of articles were not revealing any secrets. It is more like they are "the ups and downs of mixing drinks." I can sort of tell you what a lot of the stuff they are talking about looks like, but why that is really the drink is a secret I don't know. I'm sure some alot of it is the knowledge from bartending school, but I don't believe bartending school teaches any trade secrets, but more mixing techniques. That being said, I wish there were some real, end-to-end, 3rd party guaranteed articles about bartending as opposed to opinion pieces masquerading as published articles. ----- dmitrygr Whenever I read one of these I wish the link would show "Professional drink mixer" next to 'Elite'. ~~~ edmccard So I suppose you wish there was more in the article? ----- Ajedi32 How exactly is this any different than any other cocktail recipe you could find anywhere? If you're looking for a recipe that has new techniques or techniques that are hard to find in other places, you could as easily turn to books like "How to Mix Drinks" or some other cocktail specific reference.
